ABOUT ME

I'm a Senior Full Stack JavaScript Developer specializing in building dynamic, scalable web apps with Angular, React.js, and Node.js. I focus on performance, usability, and modern technologies to deliver impactful solutions.

At Publicis Media Germany, I work on digital platforms and campaign tools. Previously, I contributed to Metro Markets' B2B e-commerce platform, enhancing customer satisfaction.

I hold a Computer Science degree from Université de Tunis El Manar and Node.js certifications (JSNAD & JSNSD). With experience since 2016, I excel at crafting polished, user-friendly interfaces and enjoy tackling complex challenges in diverse teams.

WORK EXPERIENCE

May 2025 - Present
Publicis Media Germany | Toulouser Allee 3, 40211 Düsseldorf, Germany

Senior frontend developer

At Publicis Media Germany, I work as a Senior Frontend Developer, building advanced user interfaces with React.js, Material UI, and Rspack in a microfrontend setup using Module Federation. I manage app builds and deployments, ensuring smooth CI/CD workflows and high performance. My role also involves implementing refined UX patterns and collaborating closely with cross-functional teams to deliver scalable digital solutions.

May 2022 - April 2025
Metro Markets GmbH | Ria-Thiele-Straße 2a, 40549 Düsseldorf, Germany

Senior web developer

In this role, I improved Metro's online marketplace login/signup using Angular, Next.js, and Node.js. I enhanced user experiences on the front-end and built strong backend APIs, boosting user engagement and platform growth.

Nov 2021 - Apr 2022
Unicorne | 797, boulevard Lebourgneuf, suite 313 Québec, Qc, G2J 0B5, Canada

Senior full-stack JavaScript developer

At Unicorne, I specialized in building React.js apps on AWS, refining my React.js skills for responsive and feature-rich apps. I also became adept at using AWS for scalability and security, emphasizing innovation and growth in a dynamic, collaborative environment.

Oct 2020 - Oct 2021
Breakpoint Technology | Tunisia

Senior full-stack JavaScript developer

At Breakpoint Technology, I specialized in React.js, Redux, Next.js, and Nest.js, mastering these technologies. I played a key role in improving web apps with dynamic user interfaces using React.js and Redux. I also used Next.js for server-side rendering and Nest.js for backend development, enhancing project robustness and efficiency, and prioritizing high-quality software solutions.

Dec 2017 - Sep 2020
xTECH | 1 Rue El Ghazali La Marsa 2070, Tunisia

Full-stack JavaScript developer

In my first full-time role as a Fullstack JavaScript Developer, I worked on diverse projects using the MERN stack and AWS for German clients. This strengthened my MERN stack skills and gave me hands-on experience with AWS, enabling me to build robust, scalable, and cloud-powered apps. My contributions were crucial in meeting each client's unique needs and ensuring project success.

Jul 2016 - Dec 2017
Freelancer | Remote

Full-stack JavaScript developer

In my first role as a Fullstack JavaScript Developer, I worked with various clients, using Firebase for the backend and React.js and Angular 2 for the front-end. This experience improved my skills in real-time, data-driven app development and delivering customized solutions to diverse client needs.
